million EUR

**CIVIL SOCIETY
AND MEDIA**

17.2

million EUR

**SUSTAINABLE
ENERGY**

Denmark is supporting Ukraine's reform processes through the five-year Danish Neighbourhood Programme. The overall budget frame for Ukraine amounts Euro 64 million for the years 2017-2021. In addition, the programme finances Danish officials seconded to international organisations and monitoring missions in Ukraine for both short and long-term assignments.

The Danish Neighbourhood Programme has the overall objective to promote a peaceful and stable Europe with freedom and progress. The Programme has two thematic objectives: i) Promoting human rights and democracy, and ii) Strengthening sustainable and inclusive economic growth. Programme interventions contribute to the development of a democratic society with responsible and accountable authorities, an active civil society as well as free and well-functioning markets.

The Neighbourhood Programme has been developed in close consultations with relevant partners in Ukraine and builds on the Sustainable Development Goals, the priorities of Ukraine, Denmark's Strategy for Development Cooperation and Humanitarian Action 2017 as well as trade and commercial interests. Programme interventions are implemented by partners that all are selected based on their proven ability to deliver results.
