Suspicion of irregularities in relation to Skive College`s activities in Kenya

The Ministry of Foreign Affairs of Denmark supports GLOBUS with the aim of engaging Danish students under education in relation to exchange projects and circular projects. GLOBUS has been granted DKK 18.8 million annually in the period of 2023-2025. Skive College was granted DKK 1,496,184 from GLOBUS in 2023 for the project, "International collaboration with Kenya".

In august 2024, GLOBUS received information from Skive College regarding mismanagement in a project in Kenya in relation to a visit from the Danish school to a local school. The allegations involve potential breach of agreement regarding accommodation of students and misuse of funds by an employee at Skive College. The amount under suspicion has not yet been identified.

GLOBUS and Skive College are in close cooperation to clarify the case and consider what the next step in the case should be. An audit has been initiated to review all expenses. When the allegations were shared with GLOBUS, the employee from Skive College, who was under suspicion, chose to resign. GLOBUS has already started the process of updating guidelines for future school exchange visits.

A new report will be forwarded when there are further developments in the case.
