

Annex F: Comparative Partner Analysis

In this section, we present the results of the comparative partner analysis, which demonstrates the strategic priorities within Denmark's Humanitarian Strategy that are covered by each of Danida's partners.

The matrix is based on partner self-reporting. If a priority is a significant part of partners' Danida-funded programmes, this is indicated with a capital X. If a priority is a part of their programmes but not in a significant way, this is indicated with a small x.
