**Suspicion of irregularities in relation to implementing partner under the Regional Development Protection Programme Phase III in Jordan**

---

Reference is made to the previous report dated 7 May 2025 regarding suspicions of fraud on a grant to an implementing partner under the Regional Development Protection Programme Phase III (RDPP III). Approximately DKK 9 million has been granted for the period May 2024 to 2026, of which approx. DKK 1 million has been disbursed.

The amount under initial suspicion was DKK 171,000. A revision has changed the estimated amount under suspicion to DKK 192,067.

The Ministry of Foreign Affairs of Denmark suspended the grant in June 2025 based on findings not compliant with the grant agreement. The case was submitted to the oversight mechanism in Jordan in July 2025 for further review. The partner has been formally informed about the submission of the case.

A new report will be forwarded when there are further developments in the case.
