

VACANCY

Energy Local Consultant

Indonesia-Denmark Energy Partnership Programme (INDODEPP),
Outcome 3: Energy Efficiency in Industry and Buildings

Would you like to work with the green energy transition and energy efficiency in Indonesia?

Sirkularium is hiring a full-time Energy Local Consultant based in Jakarta to support INDODEPP's work on energy efficiency in industry and buildings, starting August 2026 or as soon as possible thereafter. You will be employed by PT Sirkularium Strategic Solution as a Full-Time Project Associate and work day to day under the technical direction of INDODEPP team. Sirkularium is looking for a self-starter with international experience and a proven ability to engage government stakeholders.

SALARY

Up to Rp 23.000.000
per month

STARTING DATE

August 2026,
or soon hereafter

DEADLINE

24 July 2026,
rolling basis

About the programme

INDODEPP is a government-to-government cooperation on energy, initiated in 2020 to support the Indonesian government in reaching its targets on energy and climate change. It covers four areas: scenario-based long-term planning and regulation, integration of renewable energy, energy efficiency in national strategies, and low-carbon development in the provinces.

The Danish Energy Agency (DEA) in Copenhagen and the Royal Danish Embassy in Jakarta manage the programme. Key Indonesian partners include the Ministry of Energy and Mineral Resources (MEMR), the Directorate General of New, Renewable Energy and Energy Conservation (EBTKE), the Ministry of Industry, BPSPDM Jakarta and PPSPDM KEBTKE.

Your role

You will assist the DEA in its ongoing activities and in programme development on energy efficiency in buildings and industry (Outcome 3). This includes facilitating partnership engagements and close day-to-day coordination between the DEA, EBTKE and relevant Indonesian institutions, local authorities, organisations and stakeholders.

You will contribute technical analysis and local insight on energy conservation in buildings and industry, support the dissemination of results and recommendations on regulation, and assist with a broader set of administrative tasks on an ad hoc basis. Technical knowledge or prior work experience from the energy sector is required.

The specific portfolio of tasks will be agreed with the two project leads at DEA, who are your main reference point during the engagement.

Key facts

POSITION

Energy Local Consultant

What you will do

- Facilitate day-to-day coordination with the project leads at DEA and between key Indonesian partners, supporting the development and progress of energy efficiency programme activities
- Support programme administration on an ad hoc basis: managing deliverables, developing and updating material, budget planning, presentations and speaking notes
- Take part in high-level meetings, site visits and workshops in Indonesia, providing logistical and linguistic support (venues, catering, translation, invitations, minutes, documentation)
- Provide stakeholder mapping and engagement advisory for the formulation and implementation of energy efficiency activities, as part of annual programme reporting and evaluations
- Maintain close coordination with companies, local authorities, universities, industrial clusters, local consultants and business associations
- Monitor political, policy and legislative developments affecting energy efficiency in Indonesia
- Provide technical input to reports and review technical documents on Indonesia's energy sector and energy efficiency in buildings and industry

Experience and qualifications

- A Master's degree in engineering, international relations, political science, business or investment administration, economics or another relevant field (alternatively a Bachelor's degree with additional relevant work experience)
- Minimum 5 years of work experience in Indonesia's energy sector, preferably in renewables, energy efficiency and the green transition; experience from both private companies and government institutions is an advantage
- Previous project coordination experience and technical knowledge in energy efficiency
- Good political intuition; experience working in or with government bodies or other politically led institutions is preferred
- Knowledge of Danish strongholds in green technologies is an advantage, but not a requirement
- Proactive and innovative, able to grow and maintain a network in the energy sector, with strong analytical skills
- Able to work independently and in teams, and to travel domestically and internationally
- Fluency in Bahasa Indonesia and English, both written and spoken

What Sirkularium offers

An international, mission-driven work environment with travel in Indonesia and possibly to Denmark, collaborating with Danish energy specialists and Indonesian stakeholders on the green energy transition. The role is a full-time, fixed-term employment contract (PKWT) for 12 months, including a 3-month probation period, with a monthly salary of up to Rp 23.000.000, BPJS employment and health insurance, THR, end-of-contract compensation, 12 working days of paid annual leave plus Indonesian national holidays, and paid sick leave. Daily work is remote (work from home) in Jakarta. Technical direction and performance evaluation rest with the INDODEPP team.

How to apply

Apply online at sirkularium.com/en/hiring. Complete the form and attach your application in English as one PDF (cover letter, CV, photo, proof of relevant education, recommendations and 2-3 references with contact details). The deadline is 24 July 2026. Applications are reviewed on a rolling basis and Sirkularium aims to appoint a suitable candidate as soon as possible, so early applications are encouraged and the vacancy may close before the deadline. This recruitment is led by Sirkularium. Shortlisted candidates will be invited to an online interview, a written test and a final in-person interview in Jakarta, held in English.

The chosen candidate must present a "No Criminal Record" certificate prior to appointment. Questions can be directed to Sirkularium on LinkedIn. Sirkularium welcomes applications from all qualified persons regardless of race, sex, religion, age or disability.
