

ANNEX 1B

ASSESSMENT AND SCORING

Annex 1B is a guide for assessing and scoring the full proposal for Strategic Partnerships 2027-2031 based on the Application Form (Annex 1) and relevant annexes. Applicants should therefore not fill out this form, but use it for information only.

As with the prequalification, where organisations' eligibility and capacity were assessed, the full proposal for the Strategic Partnership will be scored by applying the adapted version of the World Bank inspired rating scale 'LEADS', allocating scores from 1 (poor) to 5 (excellent). Hence, the minimum an organisation can score is 1 and the maximum is 5.

LEADS stands for		Score	The score is given when there is
L	Little action/evidence	1	Weak indication that supports the criteria
E	Some Evidence	2	Some indication that supports the criteria
A	Action taken	3	Indication that supports the criteria
D	Developed	4	Solid indication that supports the criteria
S	Sustainable	5	Comprehensive indication of implementation and/or indication of an established approach/system that supports the criteria

To score the application, each of the six criteria listed below is broken down in sub-criteria with a weighted percentage. This means that each sub-criterion will receive a score of 1-5 and afterwards weighted with the respective percentage. The total score of the criterion will hence reflect the combined weighted scores of each sub-criterion.

The full proposal will be assessed based on criteria and weights as indicated below.
