Suspicion of irregularities in relation to humanitarian aid in Somalia

Reference is made to the previous report dated 2 August 2023 regarding suspicions of post-distribution diversion and stealing of aid on a grant to UN organisations in Somalia. The Ministry of Foreign Affairs of Denmark supported the humanitarian efforts of UN organisations in Somalia with DKK 143.7 million in 2022.

The UN organisations in Somalia conducted a comprehensive investigation to clarify the scale of the irregularities, and identify which donor funds were involved. The investigation confirmed that no Danish funds were involved in the incident.

The UN has implemented several actions to mitigate challenges identified. This includes capacity building of partners on supply management and warehouse inventory, strengthening community awareness and supply monitoring at warehouse, and digitizing beneficiary registration and ration card, including unique identifiers for beneficiaries.

The Ministry of Foreign Affairs thus regards the case as closed without loss of Danish funds.
